Objective

Dedicated MERN Developer and Software Engineer with a passion for crafting innovative, user-centric applications. Seeking to contribute expertise in modern web development to a forward-thinking team.

Education

ITER , SOA University , Bhubaneswar, India   **September 2021 – Present**
Bachelors of Technology in Computer Science Engineering   *GPA: 8.7/10*
Coursework: Java, OOPs, DBMS, Algorithm Design, Web Development,OS

D.A.V. Public School, Berhampur, India   **April 2019 – June 2021**
Intermediate in Science   *Percentage: 80*
Coursework: Physics, Chemistry, Maths, Biology

Technical Skills

Languages/Database: Java, JavaScript, Python, HTML, CSS, MongoDB, SQL, TypeScript, Data Structures, Algorithms
Web Technologies: React.js, Next.js, Framer Motion, GSAP, Express.js, RESTful API, Next Authorization, Redux
Software & Tools: GitHub, GitLab, Figma, Postman, Heroku and Netlify

Experience

Dabotics Pvt. Ltd   **July 2023 - August 2023**
Intern , MERN Developer   *Remote, India*
- Actively contributed to MERN stack web app development, enhancing UI/UX and collaborating within cross-functional teams.
- Created modular React components, boosting code efficiency by 30%, and resolved 90% of debugging challenges.
- Assisted in deploying 2 RESTful APIs with authentication measures, elevating application security and adapting to new tech rapidly.

CodSoft   **July 2023 - August 2023**
Intern , FullStack Developer   *Remote, India*
- Contributed to full-stack development of web applications using React, Node.js, and MongoDB, ensuring seamless user experiences and responsive design.
- Collaborated within Agile/Scrum teams, implementing state management, authentication, and API integrations while engaging in code reviews.
- Enhanced problem-solving skills through troubleshooting, testing, and optimizing application performance for a dynamic learning experience.

Fiverr   **February 2023 – Present**
Freelancer   *Remote*
- Created tailored websites on Fiverr with more than 10+ satisfied clients.
- Utilized HTML, CSS, JavaScript for seamless, client-satisfying projects.

Projects

GithubUser | *React, API, Auth, API, Tailwind, Postman Link*   **July – August 2023**
- Engineered "GitHubUser," a React application empowered by GitHub API, facilitating authenticated users to seamlessly retrieve comprehensive user details.
- Orchestrated API integration, designed secure user authentication, and collaborated within a dynamic team, resulting in swift, user-centric data access.

PortFolio Designs | *Tailwind, Framer Motion, GSAP, Figma , MaterialUI Git*   **January – Present 2023**
- Created captivating portfolios with modern frameworks, animations for diverse clients.
- Seamlessly integrated aesthetics, interactivity, garnering positive client feedback and recognition.

Animated Gallery | *Framer Motion, GSAP.js, Animate.js, Tailwind, Next.js Git*   **August – August 2023**
- Developed dynamic gallery using Framer, GSAP, Animate, Next.js for immersive experience..
- Innovative animations, collaborated with designers, recognized for cutting-edge design.

Expense Tracker and Blog Page | *Firebase, Next, Netlify, Prisma, Postman Git*   **July – August 2023**
- Efficient expense tracker: Firebase, Next.js, Netlify, Prisma for seamless management and the Blog page allows the user to create , read , update and delete authenticated users.
- Recognized for user-friendly design, adept use of modern technologies and basic CRUD operations

Achievements

- One of the TOP 10 Finalists at InCode 2023 - Challenging Justice Hackathon .
- Currently 4 star Java Programmer on HackerRank and 2 Star CodeChef .

Certifications

Fullstack Developer : Udemy , React.js : Udemy , Python Programming : Coursera,Mastering API Fundamentals : Postman API
